

Kindergarten Newsletter
for the week of May 3rd -May 7th
kweber@mcacad.org

Welcome to May!! Wow! Where did the year go?

Planning and preparations are underway for our graduation. Due to covid restrictions graduation will be limited to parents and siblings only. We will, however, be able to zoom for the extended families to watch though. Thanks to Ethan's mom this opportunity will be available. Further details will follow.

Our caterpillars are now into their chrysalises, so we have had fun observing their changes and counting the days until they emerge. It is always a great way to end the year!!

Just a suggestion... You might consider taking your child to Washington school for a visit before the year ends. I am sure this would alleviate much of their apprehension about a new school.

Memory Verse

Weekly Goals:

Bible: We will discuss Saul.

Reading: I purchased everyone the Big Blue Book of Seuss as a keepsake. It has sparked the flame once again for reading which was my intent! The other day I overheard two girls choral reading the same story together... it was music to my ears! Others are reading stories for the first time and learning their special sounds as they read. Three took their books with them on long car rides to vacation spots. Another fun way to wrap up our year!!

Spelling: Our words will deal with butterflies this week; **Group A:** larva, crawl, eating, butterfly, caterpillar, egg, change, and leaf. **Group B:** ship, shot, chap, chop, and clap.

Science: We will continue our study of plants and their parts and functions as we continue with our Botany unit.

Geography: The kiddos are enjoying the study of our continents. This week we will learn about Antarctica.

Important Dates

Friday, May 7th Early release

Sunday May 23rd 6:00 Kindergarten graduation

Monday, May 24th Aikman Wildlife trip

Thursday, May 27th Last day of school/early release
